

Pressurized Products P XK Series Explosion-proof Pressurized Distribution Cabinets

- ◆ Explosion protection to
 - CENELEC
 - IEC
- ◆ Can be used in
 - Zone 1 and Zone 2
 - Zone 21 and Zone 22
- ◆ Explosion-proof types IIC.
- ◆ Available in types Q, T, K.
- ◆ The product consists of main cavity and auxiliary cavity. The main cavity is of pressurized cavity, with electrical components that users need and pressure check sensor system, ventilation air distribution system, and air conditioning system, etc.; the auxiliary cavity is installed with explosion-proof ventilation auto-control system, explosion-proof power auto-off system, explosion-proof alarm system, explosion-proof pressure display system, and air in/out connector; the auxiliary cavity with auto-air supply is equipped with explosion-proof air supply device.
- ◆ Cabinet type product adopts GGD frame; the main cavity and auxiliary cavity are of left and right structure; cable channel is of horizontal installation type; bottom inlet, front operation and back overhauling.
- ◆ Cabinet type product adopts high quality steel plate welding structure; the main cavity and auxiliary cavity are of up and down structure; wall type installation; bottom inlet, front operation and back overhauling.
- ◆ The back doors of cabinet type and console type are of rapid opening device, convenient for user to install and overhaul.

Pz series pressurized cabinets

- ◆ It is a pressurized explosion-proof cabinet designed for Zone 2; compared with Px series, Pz series leave out the safety device that checks ventilation time, and only marks the ventilation time; it is operated according to requirement before energizing of main cavity by user; when air pressure is lower than 100Pa, the auto-control system automatically alarms (audio and visual); opens air inflow and automatically adjusts inner air; when air inflow successes, it recovers to normal; if not, the air pressure decreases to 60Pa; the system does not automatically de-energize, but continues to alarm.

Ordering information

- ◆ Please specify the product type when ordering according to Catalogue Number Logic;
- ◆ Users should provide electrical system drawing, control schematic diagram, brand of inner components, layout drawing of panel components, cable size of inlet/outlet and quantity, etc..

Px series pressurized cabinets

- ◆ The components of pressurized cavity of console type product are mainly used for on-site control components, analysis instrument, centralized control and signal contact; and used for on-site continuous operation and monitoring;
- ◆ Computer can be installed on request;
- ◆ Special design is on request.

Ordering information

- ◆ Please specify the product type when ordering according to Catalogue Number Logic;
- ◆ Users should provide electrical system drawing, control schematic diagram, brand of inner components, layout drawing of panel components, cable size of inlet/outlet and quantity, etc..
